

Early Childhood Assessment

The CBSED Early Childhood Department provides developmental screening and evaluation at no cost to parents and as a precursor to determining eligibility for early childhood intervention programs. The CBSED Early Childhood Department partners with participating corporations' preschool programs, local Head Start programs, private preschool programs in the community, and early intervention services (First Steps) to ensure that preschool children have opportunity to participate in an early childhood experience regardless of abilities or disabilities. To refer a child for developmental screening, please contact the Early Childhood Department at 462-4364.
